Summary

Passionate data analyst with a background in environmental science and 5+ years of teaching experience. Skilled in data analysis using R, and currently upskilling in Excel, SQL, Python, and Tableau. Eager to transition into a data analysis career and make a meaningful impact.

EDUCATION

Certificate on Data Analytics:

The Online Careeroundry Acadmey for Tech, 2025

Master Degree (M.Sc.)

Koblenz-Landau University, Landau i. d. Pfalz (Germany)

Bachelor Degree (B.Sc.)

Faculty of Environmental Science and Marine Biology, Mukalla (Yemen)

PERSONAL SKILLS

Languages: English, German & Arabic.

Job-related skills: Data collection, Data visualization, Graphs, Hypothesis testing, Regression analysis, Statistical analysis, Statistical concepts

Technical Skills: Excel, SQL, Tableau, Python, R-RStudio, Power Point.

Soft Skills: Organizational skills, attention to detail, problem-solving, teamwork, communication, adaptability.

Projects

Instacart, an online grocery

The project adheres to industry standards for folder structure, naming conventions, and analysis tools. Python scripts are clean, well-documented, and use relevant libraries. Data handling includes cleaning, merging, and exporting samples. Ethical considerations were applied, and visualizations were generated. The final report provides methodology, answers, and recommendations.

Rockbuster, a movie Rental

This project evaluates the ability to write moderately complex SQL queries to answer business questions. It presents SQL results to business managers by creating visualizations and telling a compelling story. It also presents SQL results to technical colleagues using Excel and by creating a data dictionary.

WORK EXPERIENCE AND TRAINING

Secretary at Belhamed Contracting Company, Yemen

- Managed administrative tasks efficiently, including email and appointment management.
- Proficient in Microsoft Office Suite for data analysis and communication.

College Instructor at Hadhramaut University, Yemen

- Taught undergraduate laboratory courses in Environmental Sciences.
- Conducted research projects and guided students on educational tours.

Training: Environment Protection Procedures at South Valley University, Egypt

- Acquired expertise in environmentally sustainable practices.
- Implemented environmentally friendly measures within the college laboratory.

Internship at Koblenz-Landau, Germany

- Gained research experience by assisting PhD students.
- Developed skills in sample collection, problem-solving, and teamwork.
- Effectively communicated research findings through storytelling and presentation techniques.
